

IN THE CLAIMS:

Please amend claims as follows:

1. – 16. canceled

17. (original) A scent eliminating personal hygiene item selected from the group consisting of mouthwash, bar soap, liquid soap, body powder, and deodorant or antiperspirant, wherein the mouthwash and deodorant or antiperspirant each contain an amount of activated carbon up to 1.0% by weight, and each of the bar soap, the body powder, and the liquid spray each contain an amount of activated carbon up to 5.0% by weight.

18. (original) The item of claim 17, wherein the activated carbon amount ranges between 0.1 and 2.0% by weight for the liquid soap, between 0.1 and 4.0% by weight for the bar soap and the body powder, and between 0.1 and 0.5% by weight for deodorant or antiperspirant, and mouthwash.

19. canceled

20. canceled

21. (new) A method of preparing for hunting comprising:

applying a liquid spray containing an amount of an odor eliminating adsorbent up to 5.0% by weight, to at least a portion of a hunter's body prior to or during hunting.

22. (new) A method of preparing for hunting comprising:

washing hunting apparel in a powered laundry detergent containing an amount of an odor eliminating adsorbent up to 5.0% by weight or a liquid laundry detergent containing an amount of an odor eliminating adsorbent up to 10.0% by weight.

23. (new) A method of preparing for hunting comprising:

washing hunting apparel in a powdered laundry detergent containing an amount of an odor eliminating adsorbent up to 5.0% by weight or a liquid laundry detergent containing an amount of an odor eliminating adsorbent up to 10.0% by weight, and then drying the washed apparel in the presence of a dryer sheet containing an amount of an odor eliminating adsorbent up to 5.0% by weight.

24. (new) The method of claim 23, further comprising:

applying a liquid spray containing an amount of an odor eliminating adsorbent up to 5.0% by weight to the hunting apparel to be worn for hunting.

25. (new) The method of claim 23, further comprising:

applying a powder containing an amount of an odor eliminating adsorbent up to 5.0% by weight to hunting apparel to be worn for hunting;

26. (new) A method of preparing for hunting comprising:

a) applying a liquid spray or a powder, each containing an amount of an odor eliminating adsorbent up to 5.0% by weight, to at least a portion of a hunter's body prior to or during hunting;

b) washing a portion of the hunter's body with one of a liquid or a bar soap, the liquid soap containing an amount of an odor eliminating adsorbent up to 3.0% by weight, and the bar soap containing an amount of an odor eliminating adsorbent up to 5.0% by weight;

c) rinsing a mouth of the hunter with a mouthwash containing an amount of an odor eliminating adsorbent up to 1.0% by weight; and

d) applying a deodorant or anti-perspirant containing an amount of an odor eliminating adsorbent up to 1.0% by weight to a portion of a hunter's body.

27. (new) A method of preparing for hunting comprising:

washing a portion of the hunter's body with one of a liquid or a bar soap, the liquid soap containing an amount of an odor eliminating adsorbent up to 3.0% by weight, and the bar soap containing an amount of an odor eliminating adsorbent up to 5.0% by weight;

28. (new) The method of claim 22, wherein the odor eliminating adsorbent ranges between 0.1 and 4.0% by weight for the liquid laundry detergent and between 0.1 and 5.0% for the powered laundry detergent.

29. (new) The method of claim 23, wherein the odor eliminating adsorbent ranges between 0.1 and 4.0% by weight for the liquid laundry detergent and the dryer sheet, and between 0.1 and 5.0% for the powered laundry detergent.

30. (new) The method of claim 27, wherein the odor eliminating adsorbent ranges between 0.1 and 2.0% by weight for the liquid soap, and between 0.1 and 4.0% by weight for the bar soap.

31. (new) A method of preparing for hunting comprising:

rinsing a mouth of the hunter with a mouthwash containing an amount of an odor eliminating adsorbent up to 1.0% by weight.

32. (new) A method of preparing for hunting comprising:

applying a stick deodorant or a stick anti-perspirant containing an amount of an odor eliminating adsorbent up to 1.0% by weight to a portion of a hunter's body.--

33. (new) A method of preparing for hunting comprising:

applying a powder containing an amount of an odor eliminating adsorbent up to 5.0% by weight to hunting apparel to be worn for hunting.

34. (new) A method of preparing for hunting comprising:

applying a powder containing an amount of an odor eliminating adsorbent up to 5.0% by weight to a portion of a hunter's body.
